

HYDROFLAME

Professional Hydrogen Generator

Hydroflame SL 1200/2400 Series

Hydrogen + Oxygen Generator
for Green Industrial Applications

Hydroflame™ onsite hydrogen generators are a safe and cost-effective technology to produce pure hydrogen and oxygen from water for industrial applications; semiconductor, materials processing, heat treatment and brazing. With flame temperature up to 3000°C Oxy-Hydrogen is perfect for all types of metal platinum gold, silver, copper, brass and acrylic. Our compact systems are easy to install and require minimal maintenance.

Hydroflame Features and Advantages+

- Cost effective H₂ & O₂ supply - rapid payback
- Increased safety - minimized explosive gas storage
- Fully automatic - unattended operation
- Communication display - data logger and alarm
- Low maintenance - only water and electricity
- Fast and easy installation – onsite & compact
